

IMPACT REPORT

SPRING/SUMMER 2020

Emergency Program Feeds Families

On March 14, COVID-19 closed schools and their lunch rooms, taking away the only nutritious meals available to many Moore County kids each day.

Thanks to the generosity of the Sandhills community, the Boys & Girls Club - in partnership with Moore County Schools and TeamGreen - has distributed free lunches, next-day breakfasts and dinners to food insecure Moore County youth and families since March 18 from 26 distribution sites around the county or through no-contact delivery.

The program will continue through at least June 30. For safety during our emergency food program, the Clubs will remain closed to members.

THANKS TO OUR DONORS!
